We need your help!

Do you:

PURPOSE & BENEFITS OF NEW HIRE REPORTING: *New hire reporting speeds up the child support income withholding order process, expedites the collection of child support from parents who change jobs frequently, and quickly locates alleged fathers/non-custodial parents to help in establishing paternity and child support orders. New hire reporting helps children receive the support they deserve. Employers are a key partner in ensuring financial stability for many children and families and should take pride in their role.*
