

New Mexico New Hires Directory

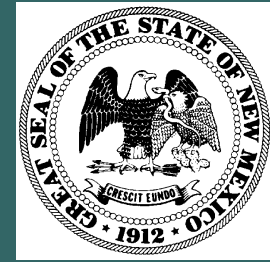

The future of our community depends on the children. Unfortunately, poverty prevents many of New Mexico's children from realizing their aspirations, which prohibits the positive growth of our community. But employers like you can help children reach their full potential by reporting all newly hired employees to the New Mexico New Hires Directory.

New Mexico law (§50-13-1 a 50-13-4) and federal law (42 USC §653.a.(b)(1)(A)) requires all employers to report all their new and returning employees to the New Mexico New Hire Directory within 20 days of the date of hire. By reporting your new hires, employers like you help facilitate the collection of child support, allowing our children to lead more fulfilling lives. The children of our community are counting on you——

Our Community

Our Family

New Hire Reporting aids in:

- Easily locating individuals who owe child support
- The collection of child support through income withholding.
- Providing children with medical insurance when eligible
- Detect fraud in areas of Unemployment and Workers Compensation benefits
